§ 359.36 May I purchase definitive Series I savings bonds through employee thrift, savings, vacation, and similar plans?

You may purchase bonds registered in the names of employee plans in authorized denominations through a designated Federal Reserve Bank, as provided in part 360 of this chapter.

§ 359.37 How are definitive Series I savings bonds delivered?

We deliver definitive bonds by mail to your address. If your address is within the United States, its territories or possessions, or the Commonwealth of Puerto Rico, we will deliver bonds at our risk. Bonds delivered elsewhere will be delivered at your risk; however, at our discretion, we may require delivery to an address within the United

States, or refuse delivery to addresses in countries referred to in part 211 of this chapter.

§ 359.38 How is payment made when definitive Series I savings bonds are redeemed?

A financial institution qualified as a paying agent under the provisions of part 321 will pay the current redemption value of a definitive Series I bond presented for payment. The bond must meet the requirements for payment specified in part 360. You must establish your identity and entitlement to redemption to the satisfaction of the agent, in accordance with our instructions and identification guidelines, and must sign and complete the request for payment.

§ 359.39 How are redemption values calculated for definitive Series I savings bonds?

We determine the redemption value of a definitive savings bonds for the accrual date (the first day of each month) by first determining the composite rate as defined in § 359.13. If the result of the composite rate calculation is a negative value, zero will be the assumed composite rate in the redemption value calculation. Redemption values are calculated using the following formula (For examples of the calculation, see appendix A to part 359):

$$FV = PV \times \{[1 + (CR \div 2)]^{(m \div 6)}\}$$

Where:

FV (future value) = redemption value on the accrual date rounded to the nearest cent without consideration of penalty.

PV (present value) = redemption value at the beginning of the semiannual rate period calculated without consideration of penalty. For bonds that are older than five years, PV will equal the redemption value at the start of the semiannual rate period.

CR = composite rate converted to decimal form by dividing by 100.

m = number of full calendar months elapsed during the semiannual rate period.

§ 359.40 How can I find out what my definitive Series I savings bonds are worth?

(a) *Redemption values.* Redemption values are available for definitive bonds in various formats and media.
